Two More Jailed in Brink's Case

BOSTON (AP)—FBI agents burst into a tenement hideout last night to capture the last two of the 11-man gang charged with the \$1,218,211 Brink's robbery.

Thomas F. Richardson, 49, and James I. Faherty, 45, were nabbed by six agents while they were eating a stew supper in a Dorchester district flat.

On a chair near the supper table were three towel-covered pistols which they did not have.

It wasn't necessary. The two men were taken so quietly from the building that a children's street ball game not far away wasn't even interrupted.

The agents confiscated the meager contents of the bedroom-kitchen - bathroom flat, including \$5,009.08 in rolled coins stored in three beer cartons.

Authorities could not say immediately if the money was part of the Brink's loot taken Jan. 17, 1950.

Convict Killed Before Riot Comes to End

TALLAHASSEE, Fla. (AP)—One convict was killed and several wounded today in a short-lived riot at state prison at Raiford, Gov. Leroy Collins reported to an emergency meeting of the Cabinet.

Raiford is about 50 miles west of Jacksonville.

Collins said Warden Dewitt Sinclair had advised him the riot was under control and outside help would not be needed. However the governor said he had ordered Adj. Mark Lange of the National Guard, to investigate to determine if troops were required to maintain order.

Collins said he had sent his administrative assistant, Joe Grotegut, to Raiford as an observer and had instructed the Florida Highway Patrol to give the prison all needed help.

Collins said that Sinclair had telephoned him to report that a group of convicts awaiting work assignments in a prison compound had suddenly become rebellious and broken into a recreation storage room where baseball bats and other sports equipment is kept.

The governor said Sinclair broke off the call saying he had just heard gunfire in the compound.

A few minutes later, Collins said Sinclair called back to report that one convict was dead and several others hospitalized.

The governor had no further details immediately.

Loafer's Glory, After 55 Sleepy Years, Is Ready for Growth, Invites New Capital

By HAL BOYLE

LOAFER'S GLORY, N. C. (AP)—Watch your step, New York. Chicago, beware. Look out, Los Angeles. America's most beautifully named community — Loafer's Glory, here in the heart of the Blue Ridge Mountains of western North Carolina—is on the march for growth. It invites fresh capital and new tired blood. Anyone who can tell a tall story well, who can yawn restfully in one of the loyalest settings in the western hemisphere, is welcome to become a pioneer in Loafer's Glory's cautiously slow climb to metropolitan stature as the modern Athens of those who put content above worry.

Before investing in Loafer's Glory's future a stranger might well want to know more about the town.

Well, it was founded — no one seems sure just when — early in the last century. Today 30 acres and five families, if you stand on the outskirts and throw a rock, you are more likely to hit a person if

House Group Bans Long Term Aid Authority

WASHINGTON (AP)—The House Foreign Affairs Committee today voted to deny President Eisenhower's request for long term foreign aid authority. It agreed instead on a statement of intent to continue foreign aid as long as necessary to fight communism.

The committee also voted to cut in half the 200 million dollars Eisenhower sought for special economic aid funds for Asia and the Middle East.

It said these funds should be distributed in loans or surplus farm goods, not given away as money grants.

Chairman Richards (D-S.C.) announced the double blow to the administration's \$4,900,000,000 foreign aid bill after a closed committee session.

He said the vote on longterm authority for specific foreign aid projects—a major feature of the bill—was not unanimous but was quite lopsided against the President's request.

Eisenhower had asked for up to 100 million dollars a year for 10 years for long range overseas aid projects.

Still ahead of the committee is the question of cutting Eisenhower's request for three billion dollars for arms aid abroad.

The military assistance request—three times as much as Congress voted for the purpose last year—is expected to catch the brunt of congressional fund cutting. It is the biggest item in the \$4,900,000,000 Eisenhower has asked for foreign aid for the year starting July 1.

Administration says the bigger amount is needed to keep the "pipeline" of arms shipments flowing at a steady rate in America's effort to bolster the free world against communism.

But there have been predictions the House committee will slash anywhere up to 1½ billion dollars off the over-all total.

Eisenhower's requests fared both well and poorly as the committee made its first closed-door decisions yesterday. It voted for more than Eisenhower asked for fostering American private investment abroad, but it turned down part of his request for greater flexibility in handling foreign aid funds.

The administration had sought to raise from 200 to 350 million dollars the President's authority to guarantee private American investments overseas against foreign movement confiscation or against inability to convert foreign currency earnings into dollars.

The committee approved an amendment by Rep. Vorvys (R-Ohio) to boost the guarantee ceiling to 500 million dollars and to expand the program to 10 years from its present five-year limit. This does not involve extra U. S. government spending unless the guaranteed private investments suffered from confiscation or non-convertibility of earnings.

On the other hand, the committee voted to cut in half the 300-million-dollar amount Eisenhower asked authority to use without restrictions.

The 150 millions authorized in two separate sections were the same amounts voted last year for this purpose.

The congressmen touched only briefly on the \$1,900,000,000 economic aid section of the bill. They cut off 15 million dollars by voting to halve the 30 millions proposed for Yugoslavia.

Legal Horse Racing at Spa Passes Hurdle

ITTLE ROCK (AP)—A move aimed at giving constitutional approval to pari mutuel betting at Hot Springs was cleared through the attorney general's office here today.

The proposed amendment would make pari mutuel betting legal in Arkansas. However, the proposal is at odds with another proposed amendment that would ban all pari mutuel betting in Arkansas.

If both proposed amendments—one prohibiting pari mutuel betting and the other, sanctioning it in Hot Springs—are approved by confused voters in the November general election, the measure getting the most votes will stand, said the attorney general's office.

Security Council Meet Urged on Middle East

By BRUCE MUNN

UNITED NATIONS, N. Y. (UP)—U. N. diplomats today urged an early meeting of the Security Council to act on Secretary General Dag Hammarskjöld's Middle East mission before the "peace momentum" is lost.

It has been a week since Hammarskjöld delivered the council his 7,500-word report of the Palestine peace mission which achieved a cease fire agreement between Israel and four neighboring Arab states. No date was set for a council meeting; there was no indication one is planned soon.

Ambassador James J. Wadsworth, deputy chief of the United States delegation, expressed a growing sentiment among U. N. diplomats when he said it "is imperative that the momentum should not be lost."

Hammarskjöld favored a period for digestion of his voluminous and involved reports before the council acts on it. But many diplomats said privately they thought the impetus for U. N. peace moves in the Holy Land should be returned to the council now.

Hammarskjöld talked with Dr. Joza Brilej of Yugoslavia, council president for May, but there was no indication they agreed on any date for a session of the 11-nation body that sent the secretary general to Palestine for a look-see on April 4.

Irrigation Is Solution, Farmers Told

MCGHEE, (AP)—An all-out conversion to irrigation, especially in cotton, would improve the depressed agricultural economy, delta cotton farmers were told here today.

Addressing an irrigation conference, Dr. G. G. Williams, manager of irrigation research and development for Olin Mathieson Chemical Corp., said:

"The excellent farm manager will control all the plant growth factors and will start his crop needs moisture, regardless of rainfall predictions and weather forecasts."

The greatest hope for increasing farm profits lies in more widespread use of proper irrigation, insect control, adequate fertilization and use of good seed, Dr. Williams said.

The conference at this southeast Arkansas town was sponsored jointly by Olin Mathieson and W. B. Loyd & Sons, farm equipment dealers in southeast Arkansas.

Robert W. Schroeder of Star City told the farmers that cotton yields per acre in Lincoln County have been tripled since 1949 through the use of irrigation, insect control and fertilization.

Schroeder, Lincoln County agent, is president of the Arkansas County Agents Association.

Other speakers at the one-day session included Billy B. Bryan of Fayetteville, assistant professor of agricultural engineering at the University of Arkansas; Dr. Robert L. Beacher of Fayetteville, head of the Arkansas Soil Testing Laboratory; W. F. Pierce, executive vice president of Dermott, State Bank, and Dr. W. B. Giles, superintendent of Delta Branch Experiment Station at Stoneville, Miss.

Tax Assessing Issue Passed Twice by Court

LITTLE ROCK (Special)—Work on re-appraisal of real and personal property with the special purpose of complying with the 1955 legislature's directive for "a complete new appraisal and assessment" as of January 1, 1957, has slowed virtually to a standstill in many Arkansas counties.

The reason is a suit testing the legality of Pulaski county's employment of a professional appraisal firm which the state Supreme Court took under submission May 7.

The court has convened formally twice since that date but has not yet handed down an opinion on the issue. The court usually, but not always, reaches a decision within two weeks of the date a case has been submitted.

The 1955 act, No. 153, which directed the new appraisal of all real and personal property within the state and set up a new division within the Public Service Commission to fix the assessment percentage, is not under attack. Pulaski County proceeded to hire the Professional Appraisal Firm, E. T. Williams and Associates of Lincoln, Neb., under a 1949 act, No. 351, which specifically authorizes taxing units to retain professional appraisers. It is this legislation which is before the Supreme Court.

Walter L. Hinton Jr., director of the Assessment Co-ordination Division of the Public Service Commission, said this week he thinks 18 or 19 counties are waiting on the court's decision. In several others, professional appraisers have already been placed under contract, and, in fact, Union County's employment of Arkansas Appraisal Company is also in litigation, an appeal from a Union County court having reached the Supreme Court March 13.

Union county proceeded under a different act, No. 371, of 1955, which authorizes the equalization board to employ appraisers, abrogates or other persons to assist the board.

Hinton named Columbia, Independence, Hempstead, Phillips and Sebastian, as the other counties which have employed appraisers to assist their tax assessors.

On the state level, progress toward the ambitious goal set by the 1955 General Assembly is difficult to evaluate. The Assessment Co-ordination Division has also employed the Williams firm under a \$22,500 contract, to prepare the assessment manuals which, under the law, the assessors, the equalization boards and the county judges must abide by. Target date for completion of the manuals is October 15.

The division has issued two progress reports, the second of which covers a period ending April 23. It notes that "the preparation work of the manuals has been the main activity of the division because of the time element involved." Under this heading the division has placed as accomplishments:

- (1) Completion of 14 of 16 sections of a legal abstract of statutes.
- (2) Surveys in all 75 counties of labor and material costs as a basis for unit costs of property improvements;
- (3) Study of 600 structures built in 1955 for actual costs, with field work on check points in all counties completed, except in Pulaski County where plans call for checking 100 dwelling units.
- (4) Natural resource industry meetings and state-wide personal property-type business meetings.

3 More Doctors Quit Posts at State Hospital

HOT SPRINGS (AP)—Three more doctors resigned today from the staff of the state hospital for Nervous Diseases. They brought to nine the number of persons who have quit since the hospital became the target of complaints by Gov. Orval Faubus several months ago.

The resignations were submitted at a meeting of the hospital Board of Control by Supt. Ewing H. Crawford, who resigned himself only last week.

The latest to quit were Dr. Terry C. Rodgers and Dr. E. Lloyd Wilbur, visiting psychiatrists who served the hospital one day a week and Dr. Edward F. Meares, director of the out-patient clinic.

All cited what they called "conditions which have developed... no assurance that progress will continue... politically vulnerable position..." as reasons for their resignations.

Immediately after the resignations were announced the board went into executive session at the Lake Hamilton lodge of Robert Rogers of Little Rock, a board member.

The swirling controversy erupted after Gov. Orval Faubus submitted to the board several months ago a list of complaints he said he had received about the operation of the hospital. Among other things, these complaints dealt with charges of mismanagement and mistreatment of some patients and minor employees.

Dr. Crawford said he considered the complaints a personal attack against him by the governor. Faubus denied this but indicated he wouldn't be displeased if Dr. Crawford quit.

Aside from Crawford, resignations have come from Asst. Supt. Joe Parker, Farm Supt. J. L. Hannah, Administrator Ken Newman, Chief Psychologist John Gardner and Social Service Director Eleanor Blackley.

Crawford and Parker quit to accept jobs at a new mental health institution at Cleveland.

Crawford called the complaints "unjustified."

Egypt Gives Recognition to Red China

By WILTON WYNN

CAIRO (AP)—Cairo newspapers hinted today the arming of Israel by Western nations was a factor leading to Egypt's recognition of Red China.

Egypt acted yesterday. It is the first Arab nation to establish diplomatic ties with the Communist Peiping government.

The Egyptian government newspaper Al Gumburiya called Red China "a friendly people which does not take part in a conspiracy against the Arabs, nor does it export arms to Israel on the plea of maintaining the balance of power in this part of the world."

The paper referred to an Egyptian charge that the United States, Britain and France have agreed to arm Israel sufficiently to keep that country militarily superior to the Arabs.

All the Cairo papers played up a report that the cabinet meeting which voted recognition of Red China also studied reports the Western powers are sending arms to Israel. The ministers were said to have particularly discussed accounts that France is sending 12 Mystere jets to Israel with the approval of the United States and Britain.

Egypt was expected to hand Nationalist China's ambassador his walking papers shortly.

Farm Policy Revolt Has Collapsed

By JACK BELL

WASHINGTON (AP)—Senators Aiken (R-Vt.), Capehart (R-Ind.) and Kuchel (R-Calif.) contended today that any political revolt against the Eisenhower administration farm policies has collapsed.

Sen. Anderson (D-NM) said he thinks the farmers may have been "bought off" by administration increases in support prices.

Some concern has been evident among Republicans over the political effect of declining farm income and of President Eisenhower's April 1 veto of a farm bill calling for higher rigid price supports for basic crops.

Since then the House has passed and the Senate opens debate today on a revised measure containing Eisenhower's proposed selling program designed to reduce surplus production, but also some features which the administration has objected.

A major floor battle was in prospect on an effort to knock out mandatory higher supports for prices of livestock feed grains.

Aiken, who usually speaks for the administration on farm issues, said he expects the Senate to modify the feed grain provisions "to that President Eisenhower can sign this bill."

Moderate Vote Seen in Oregon

By MORRIS LANDSBERG

PORTLAND, Ore. (AP) — Election officials today predicted only a moderate vote in Oregon's primary tomorrow despite extra lively contests in the Democratic presidential and Republican senatorial races.

It was strictly a guess, however, as to the number of Democrats who will take the trouble to pencil in their choice for president. Both Adlai Stevenson and Sen. Estes A. C. C. of Tennessee entered the state's write-in candidates.

The winner will walk off with 18 delegates to the Democratic National Convention. More than that.

To the People of Hempstead County, Voters and Friends

As most of you know I am in the Hospital due to a broken foot. I am feeling better, but due to the accidents I have had it will be a physical impossibility to make an active campaign from house to house at this time. I will be out just as soon as possible.

My family and I want you all to know we appreciate everything that has been done or said in behalf of my candidacy for the office of County Judge. And I say again, keep the good work up. Thanks a million, will see you soon.

Beef to Be Featured in Many Shops

By The Associated Press
Beef in a wide variety of cut will be the principal meat featured in special sales by butcher shops and food stores this weekend.

Rising wholesale prices have squeezed pork and lamb out of the bargain category in most sections and probably will have an even greater effect by next week.

Pork was quoted six to seven cents a pound higher for cuts that will go on sale to the public next week. In Chicago hogs sold 45 percent above the lows of last winter.

Beef prices were also slightly higher. Economy cuts, such as chuck roasts, were specially priced at 33 cents a pound in some stores where they brought 29 cents a pound several weeks ago.

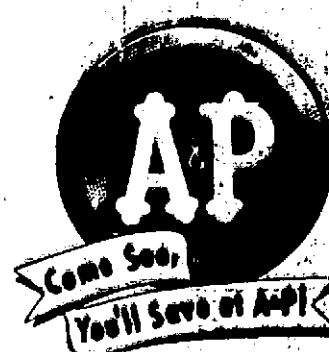

Compared to a year ago, however, beef prices are still low.

Shoppers in most sections will find some locally grown vegetables on food store counters. Generally the most outstanding buys will be spinach and radishes.

Two other spring favorites at reasonable prices are rhubarb and green onions.

Good buys among vegetables also include onions, corn, celery, carrots, cabbage, peppers and sweet potatoes.

White potatoes have increased in price in most places.

World's most popular POWER STEERING?

Buick ROADMASTER 4-Door Riviera

Right this way!

EVERY YEAR, more and more new cars are equipped with Power Steering. Many a man has bought it "for the wife"—then wondered how he ever got along without it.

And if you have in mind a new car with Power Steering consider this fact:

Since the beginning of last year, Buick has sold far more new cars equipped with Power Steering* than any other car—over 20,000 more in 1955 alone.

That's the record—and the reasons for it are just as impressive.

Buick brings you In-Line Safety Power Steering. In addition to the one finger ease of turning common to all such systems in varying degree, it has several distinct advantages:

It gives you surer, steadier, safer control at highway speeds—because it retains that good natural "feel" of the road.

On the other hand, it gives you more power assist when you need it most—at crawl speeds and at full stop. Here, Buick's Power Steering makes wheel turning nearly twice as easy as other types of systems.

Add another plus: this Buick feature works through the new Buick front end—where a unique new geometry and steering linkage bring a sweet new response and a wonderfully easy handling and a surer "sense of direction" even to new Buicks not equipped with the power system.

So there you are—and here we are, waiting to prove it all to you.

Waiting, also, to let you try the new thrills to be had in Buick's advanced new Variable Pitch Dynaflo—where getaway response and gas

mileage both step up even before you switch the pitch.

And waiting to show you how the highest power yet, the sweetest ride yet and the boldest styling yet—all help to make this bright new beauty; the Best Buick Yet.

Today is fine with us. How about you?

*Buick's In-Line Safety Power Steering is standard on Roadmaster and Super, optional at moderate extra cost on other Series.
†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

"Used to be a highway sign here saying 'Loater's Glory,'" explained Burleson, "But it rotted and fell down, and nobody thought to put it back up."

"I was born here in the same house my daddy was. He was 86 when he passed away in 1947, and the town lost its last good whittler. I don't whittle myself."

Loater's Glory met its greatest disaster in the famous flood of May, 1901.

"It was a big flood," said Burleson. "Five buildings — the general store, too — were washed away, and one man had to tie his wagon to a tree to keep it from being washed away."

Burleson, a former master-sergeant, is retired after serving through three wars during a total of 22 in-and-out years with Uncle Sam's armed forces. "altogether I was in six branches of the service trying to find the best one to loaf in," he said, and then, his eyes twinkling, he drawled:

"The rest of the people here are hard — working tobacco farmers. I'm the only real loafer left."

"Oh, you wet a fishhook in the creek now and then," objected Fred Garland, proprietor of the new general store which stocks everything from snuff to overalls. Garland is the unofficial president of the Chamber of Commerce and is determined to put Loater's Glory back on the map. He is fitting the highway department to put up a new sign. He has just paid out \$5 apiece for two old-bone benches from a remodeled church which he plans to put in front of his store to welcome all serious loafers. "I'll provide free wood for the whittlers," he said, "but I'll have to charge them for the knives."

It may take Loater's Glory a long time to overtake New York — it doesn't even have a subway yet — but no one is in a real hurry. That's the nice thing about Loater's Glory. Plus the fact there isn't a town in America with a better sense of humor.

Frick Says Minor League Must Change

BOSTON (AP)—Baseball Commissioner Ford Frick indicates sweeping changes will be needed in the game's structure to enable the minor leagues to exist. "Subsidy is not the answer. We need an evolution of rules and plans for the guys in the minors to get a break. We are working on a reappraisal to try and bring the 'haves' and 'have-nots' closer together and get closer competition. The minor league situation is serious—let's not kid ourselves."

Frick intimated that the develop-
ment of tighter player control
would spell the end of the bonus
rule which would no longer be
necessary.
Frick was in Boston to take part
in the ceremony dedicating the old
Huntington Avenue base ball
grounds on which the first World
Series was played.

Needles Is Subject of Pimlico Talk

By GEORGE BOWEN
BALTIMORE (AP)—As usual
they're searching today, mostly
to have something to talk about
at Pimlico, for reasons why Need-
les might not be able to follow up
his Kentucky Derby victory in the
Preakness Saturday.

But it's pretty hard since the
character from Florida has col-
lared more money than all of his
eight likely challengers put to-
gether.

Jack Dudley and Bonnie Heath
have collected \$462,055 from the
racing of Needles. Owners of the
eight other 3-year-olds could show
only \$343,000 if they pooled their
earnings.

The eight and their individual
earnings are Count Chic, \$84,225;
Biffel Blue, \$48,675; Fabius, \$78,
515; Golf Ace, \$54,850; No Regrets,
\$30,900; Come on Red, \$26,660;
Fleet Feet, 9,225; and Ratha-
ran, \$10,150.

The bulk of dough bagged by
Needles derives from victories in
three straight 100-grand affairs,
the Flamingo, Florida Derby and
Kentucky Derby. The Preakness
will return a profit of \$84,250.

Trainer Lloyd Lounsbury of Count
Chic, one of the few mentioned
most prominently with having a
chance to upset Needles, had this to
say:

"He's tough, but we're going to
try him a time or two more. You
never can tell with a little racing
luck."

Count Chic was beaten by three
quarters of a length by Needles
burger said. "The odds are that
nobody can get as low as 27-1."

Even without the breeze, Mil-
burn's course offers a stern chal-
lenge to the touring professionals.
Far has been reduced from 72
to 70 for the tournament, and Mil-
burn's wealth of long 4 and 5
holes should make it an elusive
figure.

Cards Boot 2nd Games to Bums, Yankees Win

By ED WILKS
Of The Associated Press

That's some pennant race in the
National League. Nobody can win
on the road and the latest sus-
tained drive by a contender has
been kept alive with the help of
nine unearned runs in two games.
Brooklyn now has a six-game
winning streak. No club in the NL
has won more in a row—and by
rights, the Dodgers shouldn't have
won that many.

The St. Louis Cardinals got the
job done for the eBrooks. Tuesday
night they donated four unearned
runs in the fourth and Brooklyn
won 7-5. Last night, the Cards
upped the ante and the Brooks
scored five unearned markers in
the fourth to win 5-3.

That snuffed the flag chase. Mil-
waukee, beaten 2-1 at Philadel-
phia, is only 22 percentage points
ahead of second place St. Louis.
And the Cards are just 16 points
in front of the Dodgers.

The defeats left Milwaukee with
a 5-5 road record and St. Louis
with a 4-4 mark on tour. Brooklyn
6-6, is the only other club as good
as 500 away from home.

Pittsburgh, belting Cincinnati
9-2 to replace the Redlegs in
fourth place, is 7-9 away from
home while Cincy is 0-5. The New
York Giants, who whacked Chi-
cago 9-3, are 5-9 away from the
Polo grounds. The Cubs are 0-9
on the road.

In the American League, New
York's Yankees reclaimed first
place from Cleveland by beating
the Tribe 4-1 behind Tom Mor-
gan's 5-2-3 innings of perfect re-
lief pitching. New York opened a
three-game set at Chicago today.

Boston defeated Detroit 4-2. Bal-
timore outlasted Kansas City 8-6.
Wally Moon hit a three-run
home in the third to give the
Cards an early lead against the
Dodgers, but then catcher Hal
Smith and third baseman Ken
Boyer erred in the fourth and
Brooklyn wrapped it up.

Robin Roberts won his fourth
in the tight duel with Bob Buhl
of Milwaukee, now 2-2.
Morgan, who was 0-3, relieved
Maury McDermott in the fourth
for the Yanks with one out, a run
home and the bases loaded. He
set down 17 in a row—every man
he faced. Mike Garcia was the
loser. Billy Martin smacked a
leadoff homer in the first. Mickey
Mantle hit No. 13.

Dick Donovan gave the White
Sox pitching staff three straight
complete games.

Frank Baumann, with help from
Tom Hurd, won for the Red Sox
in relief of Mel Parnell, who
sprained an ankle severely in a
third-inning slide.

In the Florida Derby and three
lengths when he finished fourth in
the Kentucky Derby.

Pirates Trade for Cardinals' Virdon

PITTSBURGH (AP)—The Pitts-
burgh Pirates today traded out-
fielder Bobby DelGreco and
southpaw Dick Littlefield to the
St. Louis Cardinals for outfielder
Bill Virdon, 1955 rookie-of-the-year
in the National League. No cash
was involved in the player swap.

It was the second major trade
between the Pirates and the Car-
dinals within a week and the third
for the Cardinals in six days,
with Frank Lane juggling 11 play-
ers in the transactions.

The acquisition of Virdon gives
the Pirates the sorely needed left-
handed batting power. Virdon has
been used only in relief this sea-
son, hitting only .206 in 68 times
at bat. Last year he hit .261 and
belted 18 homers.

The trade by the Pirates was
the second in two days. Only yes-
terday the Pirates swapped out-
fielder first baseman Preston
Ward to the Cleveland Indians for
catcher Hank Foiles.

Saxton Scores TKO Over Gil Turner

By CHARLES CHAMBERLAIN

CHICAGO (AP)—A couple of new
twists were added to boxing in
Chicago last night.

George Katz, manager of Gil
Turner, blew a fuse over Dr. Ir-
ving Slot of the Illinois Athletic
Commission.

Welterweight champion Johnny
Saxton declared that fans who
bo him unwittingly give him new
incentive.

"They make me work just that
much harder to beat the guy I
am fighting," he said.

The nationally televised Chicago
Stadium non-title bout between
Turner and Saxton ended abruptly
at the start at the 10th and last
round.

Slot, after the ninth, jumped
into the ring to examine Turner,
who was bleeding from a gashed
eyebrow, cut nose and from inside
the mouth. Turner was not allow-
ed to continue on Slot's orders
and Saxton gained a 10th-round
TKO.

College Expels 25 Students

PHILADELPHIA (AP) — Twenty-five students at the University of Pennsylvania have been suspended or put on probation for a "spring fever" uprising two weeks ago.

The schools Committee on Discipline yesterday met out the punishment, described as the

most drastic ever taken against participants in a "rowbottom" Penn's name for noisy student uprisings on streets near the campus.

Last May 3, 118 students were arrested. Of these, 28 were held in a \$500 bail for the grand jury and the others were released with warnings.

The Committee on Discipline, consisting of three student leaders

and four members of the administration, did not make public names.

Tax Assessing

Continued from Page One

already held or scheduled for the
near future with proposals for
methods of appraisal and assess-
ment due in by June 15.

(5) Personal property values ob-
tained on "thousands of items."

(6) A check on farm and urban
land values to determine "land
capability." In which field men
are using questionnaires incorpo-
rating such questions as (for farm
land) "In your opinion, is there
one area in this county that tops
all others when it comes to getting
the highest price for a farm?" and
(for residential land) "What is the
most I would have to pay for an
average sized lot on which to
build a house?"

Another directive of Act 153 of
1935 — that the commission
prepare a sales ratio study to deter-
mine the average ratio of assessed
value to the true and full market
or actual value of real property
so as to penalize any county in
which the average ratio is less
than 90 per cent of the legally
prescribed ratio by withholding a
portion of its state aid — has had
less attention from the Assess-
ment Co-ordination Division. The
progress report notes that "we
have assembled one year of sales
prices as a base for the 1937 de-
termination of the assessment ra-
tio," but the study of actual values
has been put off until "our work
of manual preparation is com-
pleted."

For a state agency charged with
a job of such complexity and
scope, the Assessment Co-ordina-
tion Division has been something
of a catch-all for the administra-
tion of a political obligation.

Although the act creating the di-
vision and setting forth its duties
was approved, effective immedi-
ately, on March 7, 1935, and a
supplemental appropriation for its
operation was available shortly
thereafter, it was the middle of
June that year before a top of-
ficial was appointed to run the di-
vision.

At that time George T. Lyford,
a Cherry administration holdover
from the Public Service Commis-
sion's Tax Division, was named to
the \$8,000 a year post of "en-
gineer." It was September before
a director was appointed. At that
time Walter L. Hinton Jr., who
had been manager of Central Dis-
tributing Company, a Little Rock
liquor wholesale house, got the
\$7,500 a year post.

The pattern for employment of
field men to do the tremend-
ous job necessary to get out the
new manuals and the ratio study
was set at the beginning when one
of the new jobs was utilized for
two months to give a prospective
employee of the Revenue Depart-
ment's new Tank Calibration Divi-
sion a spot in which to mark time,
another was utilized for "2 1/2
months before its incumbent
moved to a top spot in the Educa-
tion Department, another was and
still is occupied by the manager
of the McMath-for-Senator cam-
paign in 1934 and still another is
presently occupied by one of those
on whose behalf Governor Faubus
wrote the administrators of the
State Hospital. This man was
the governor's candidate for as-
sistant hospital administrator.
Since last August he has been em-
ployed in the Assessment Co-ordi-
nation Division as a field super-
visor.

The division lost another em-
ployee when Ben Rankin announced
his candidacy for state land com-
missioner. Rankin joined the divi-
sion in September, 1935, and left
the payroll last month.

Hot Chisox Get Ready for Yankees

CHICAGO (AP) — The Chicago
White Sox, who tend to roll over
and play dead against the New
York Yankees, have the momen-
tum to cause the invading Ameri-
can League leaders trouble for
three days.

Riding the crest of a six-game
winning streak, the Pale Hose to-
day will try to win their first de-
cision of the season from the
Yankees in the opener of a three-
game set at Comiskey Park.

The Yankees won two games
from the Chisox at New York.
Lefty Whitey Ford (5-0) will hurl
for the Yankees, who moved into
first place yesterday with a 4-1
decision over the Indians at Cleve-
land.

Southpaw Jack Harshman (1-1)
takes the mound for the White
Sox, whose 3-1 triumph over Wash-
ington left them in third place, 1 1/2
games off the Yankee pace and
half a game behind runner-up
Cleveland.

Sox Manager Marty Marion
awaited the Yankee test with ap-
parent nonchalance.

"We're as ready as we'll ever
be," he said. "You have to beat
everybody in this league to reach
the top. So if you ask me if we
are doing anything special against
the Yankees, I'll say no."

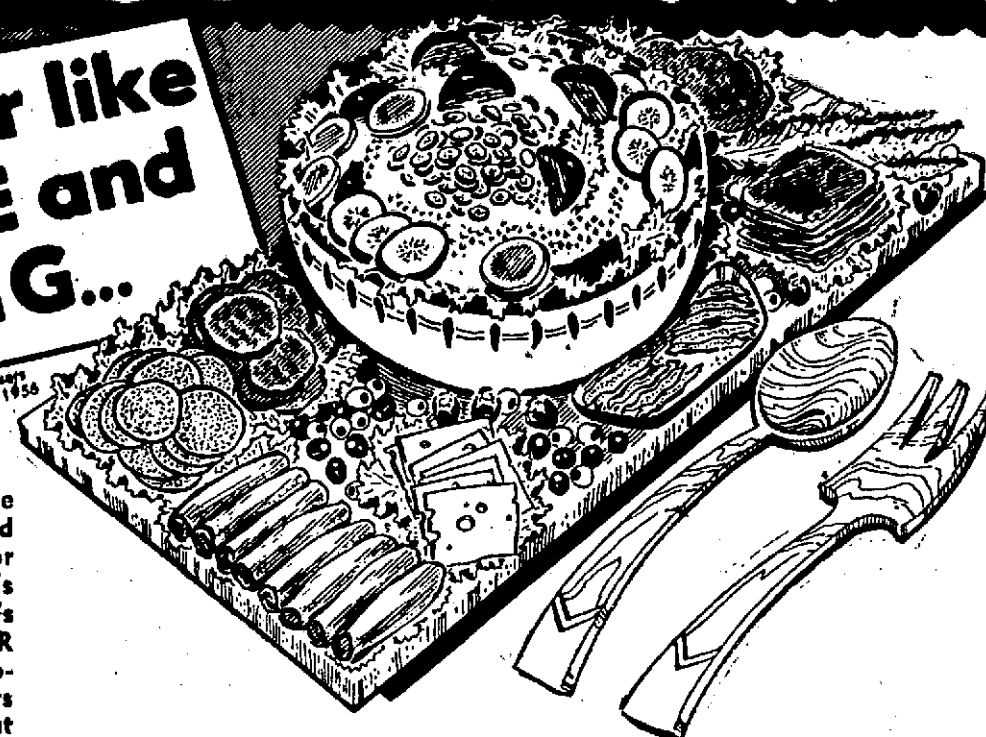

However, Marion still is using
his Sunday pitching punch against
the Yankees.
Billy Pierce (4-1) will hurl Fri-
day night and probably the re-
vived Bob Keegan (2-0) will toss
in Saturday's finale.

"In this streak of six games our
pitching and our hitting has
meshed," said Marion. "That's a
winning combination and, of
course, we got to keep getting both
if we hope to knock off the Yan-
kees."

About 8 per cent of U.S. men
aged 25-34 go to the hospital an-
nually compared to 14 per cent of
aged 35-44.
